

# HQ Plants 1

*Beautiful 3D models of real trees!*

Over 180 models of deciduous trees  
for 3DS MAX and Cinema 4D

HQ Palms 1

HQ Plants 1

HQ Plants 2

HQ Plants is the huge collection of beautiful 3D models. It contains different types of shrubs, deciduous trees, conifer trees and palms.

Main features:

- over 650 highly detailed 3D models
- realistic materials and textures
- 3D models for Cinema 4D and 3Ds Max
- ready for rendering in Mental Ray, VRay, Scanline and Cinema 4D Advanced Render
- reasonable prices for models
- customer support and FREE updates

HQ Plants 1 - \$150

HQ Plants 2 - \$150

HQ Palms 1 - \$150

HQ Plants 1&2 + HQ Palms 1 bundle - \$400

## TESTIMONIALS

*"Since we bought the HQ plants package, our job of creating forest and parks has become much simpler! The HQ Plants is a cheap and contains many models!"*

Bjørnar Moland, Ramboll Mapping  
[www.ramboll-mapping.no](http://www.ramboll-mapping.no)

*"The HQ Plants are very high quality and look awesome when rendered. They make a good finishing touch to my scenes!"*

Ben Stone, Stone Graphic Design  
[www.stonegraphicdesign.com](http://www.stonegraphicdesign.com)

*"This is by far the best collection of tree models I have found on the market to date. Each is a carefully-crafted work of art - complete with fully 3-dimensional elements including trunk, branches and foliage. You'll never want to use image planes again!"*

Antar Howarth, Perchpole Media  
[www.perchpolemedia.com](http://www.perchpolemedia.com)

## TESTIMONIALS

*“3DMentor/Konstantin Kim produces the finest 3D tree models I have seen. The modeling is tidy and efficient, and texture mapping superb. We had some hundred year old red gum 3D trees custom produced for a specific animation. Konstantin modeled them from the sample photos we took from the site. They looked very realistic and lifted the quality of the whole animation. We even got the client to pay for an additional shot panning up the tree.”*

Mike Leslie, Director  
SOUND LIGHT AND MOTION

*“Having purchased the palm tree set from 3DMentor, we were very impressed with the quality of the models which were further enhanced by the very realistic texturing. We’ll certainly be using Konstantin’s excellent service in the future.”*

Lisa Grainger  
Designhive Media Ltd

*“Library must for professional image and 3D animation. I highly recommend this package!”*

Philippe Spagnoli  
BATPROJ

## TESTIMONIALS

*“No more unrealistic trunks and no more unrealistic big leaves, HQ Plants are the most accurate and beautiful plants available at the moment!... And for an available price for a one-man company like myself, many thanks!”*

*Jelte Brouwer  
[www.visualisatiekoning.nl](http://www.visualisatiekoning.nl)*

*“The HQ Plant collections have been a tremendous addition to our existing 3D workflow. Each model looks amazing and they have paid for themselves many times over in the time that we have saved by not having to make custom trees anymore.”*

*Chuck Lounsberry, Senior Associate, Stantec  
[www.stantec.com](http://www.stantec.com)*

*“Creating images for credible exterior scenes in the shortest time is really facilitated with 3D mentor library. Everything is in 3D and in a remarkable quality from the trunk to the foliage. These plants change from what we usually see on most images of the moment... Really Great work.”*

*Vincent GRIEU, 3D Artist  
[www.vincent-grieu.com](http://www.vincent-grieu.com)*

## TESTIMONIALS

*"HQPlants allows us to offer our customers the best library of plants for Forest Pack. An impressive collection of models ready for use in Mental Ray and V-Ray at an unbeatable price."*

*Daniel Quintero, Itoo Software  
[www.itoosoft.com](http://www.itoosoft.com)*

*"I use HQ Plants on a daily basis, they are amazing. The variety of plants and trees is excellent, and they are perfect for both distance and close up shots without being too polygon heavy. I highly recommend them."*

*Neil Evans, e3Di  
[www.e3di.co.uk](http://www.e3di.co.uk)*

*"I have purchased 2 of the HQ libraries from Mentor and have been very impressed. The models are easily dropped into my Vray scenes and can also be used as-is without making changes. The variety within species is great, too and the value is excellent! I still have not even used every single plant. The models are neat, error free, and not polygon heavy. I really like to use these in conjunction with scatter plug-ins to create large forests, etc. Customer support has been great, including free updates to the collections, and very fast response time to my inquiries. These are an essential part of most of my 3d workflow and were a great value. I plan to purchase more collections in the near future, especially the flowers and Autumn collections!"*
